Investment Objective

The Guardian Cautious Portfolio is a tactically-traded growth strategy consisting primarily of low-cost passive funds which uses a trend-following overlay as an added layer of risk control intended to reduce volatility, sequence of returns risk, and maximum drawdowns. It is aimed at medium to long-term investors who are seeking capital growth from a diversified portfolio designed to assist in an efficient, reliable, low-cost accumulation investment and pension strategy.

The equity element of this portfolio will not exceed 45% but may in times of market weakness be reduced to zero and be replaced by safer alternative assets such as bonds, money market instruments and cash. Guardian trading strategies seek to invest into equities when market momentum is rising but retain profits by moving to safer alternative assets when market momentum falls with the aim of enhancing overall gain and reducing risk of loss.

The chosen funds can invest in UK and overseas equities, commercial property, fixed interest securities, natural resources, precious metals or cash.

The Guardian Cautious Portfolio is benchmarked against the average performance of the IA Mixed Investment 20-60% equity sector.

Important Information

The Crossing Point Portfolio Management Service is only available to investors who use the ongoing services of a financial adviser. For information purposes only, please contact a personal financial adviser for further information.

Independent financial advisers take no responsibility for the underlying investment strategy, the investment process and selected funds are the responsibility of Crossing Point Investment Managements' Discretionary Fund Managers. By the nature of discretionary fund management, holdings will be bought and sold, but the investment manager will not seek your permission to do this. Investment decisions will be the responsibility of the Discretionary Fund Manager.

Calculation of the fund OCFs shown is provided by FE Fundinfo. This charge may vary across the various platforms where the portfolios are available. Please refer to your investment adviser for details.

Performance Calculation: Performance is quoted on an annualised basis and calculated through Morningstar Direct. The performance calculations are provided for illustrative purposes only and should not be viewed as the performance of a specific client account. Performance is shown inclusive of ongoing fund charges but gross of transaction, platform, IFA, incidental, and Crossing Point's investment management charge. Deductions for these charges will have the result of reducing the illustrated performance.

Past performance is not a guide to future performance. The value of investments and any income from them can fall and you may get back less than you invested. If you invest in currencies other than your own, fluctuations in currency value will mean that the value of your investment will move independently of the underlying asset.
